JAEMIN CHO

Unity / C# Game Developer

Computer Game Design student at George Mason University who has shipped 10+ playable games in Unity and Unreal, from solo game jam entries to club projects with up to 14 people. Programs gameplay and UI, makes pixel art, and has taught Unity and C# to other students.

PROJECTS

This Is Not Chess Solo · Unity, C# — Oct 2026
Built on purpose with AI pair programming, to learn how to use AI well and to grow my development skills. Online multiplayer plus a card mode with 22 rule-bending jokers. itch.io trailer

Toast to the Past Solo · Unity, Aseprite — May 2026
Time-manipulation platformer (programming and pixel art) for the 2026 GMU Spring GameJam. itch.io trailer

Cat'astrophe Team of 6 · Unity — Nov 2025
Producer and main programmer on a mobile platformer; the Android build is 90% complete, aiming for Google Play. itch.io

Shh Solo · Unity, 3ds Max, Aseprite — Sep 2025
Horror escape game made alone (programming, art, sound, voice); 1st place overall at Mason Korea Game Jam Fall 2025. First time trying procedural animation. itch.io trailer

Save the Pig Team of 7 · Unity — 2023 - 2024
Co-programmed a farming sim about African Swine Fever; shown at the World Food Forum in Rome and released for HTML5 and Android. itch.io trailer

Lost Solo · Unreal Engine — Dec 2023
Produced and programmed a 3D horror maze escape in Unreal Engine and shipped a Windows build. itch.io trailer

Sweet Sixteen Team of 14 · Unity — May 2023
Programmed the enemies and co-built the UI for a club game about drug addiction; Progress@Play Award. itch.io

In progress

EXPERIENCE

Learning Assistant, Unity & C# · George Mason University — 2026
Gave code reviews and technical guidance on camera, physics/collision, and health systems.

Programmer · FAO Korea & SDGs Builders collaboration — Oct 2023
Built Save the Pig with Gnonymous for FAO; the game was exhibited at World Food Forum 2023 at FAO headquarters in Rome, where the booth drew 100+ visitors.
GMU article FAO event page

Lecturer, MK Mentoring · Game design program — Sep 2023
Taught 9 hours over 3 sessions; the students rebuilt the game Pong in Unity.

Vice President · Gnonymous game club — Feb - Dec 2023
Led club projects and members after serving as PR Manager (from Aug 2022).
